

3. Click-clack Cars

This kit contains:

- 2 click clack runs.
- 2 sets of cars (green, red, blue, yellow).

Script

Begin by using one car only. Put car at top and push it down and say, 'Car down – click clack, click clack'.

Say, 'Finished'.

Extension

Introduce the other cars and put them down the run one after another.

You may want to introduce colours and numbers as part of this script depending on the age and ability of the child, for example, 'Red car down', or 'Find the (red) car', or 'One car down, two cars down', etc.
