

Engagement Scale – Example N

1. Least Engaged	2. Partly Engaged	3. Most Engaged
<p>1. When N is least engaged, he tends to turn away from the adult and look towards the back of the sofa (when lying there), with his eyes partially open. His body is still.</p> <p>(no photo)</p>	<p>2. When N is partly engaged, he looks towards the stimulation source with bright eyes, watching thoughtfully with anticipation. His body is still.</p> 	<p>3. When N is most engaged, he is smiling with bright eyes turning his head towards the stimulating toy his mum is showing him.</p>
